

A1 Presto		Requires	€
PG101	Ea. Presto Estimate and take-off lines <i>Estimates and takeoff lines for building projects and civil works, with all the necessary functions to prepare the estimate from the viewpoint of the project team.</i>		640,00
PG300	Ea. USB authorization device <i>The user can choose between USB physical device authorization, that can be moved from one computer to another; authorization linked to a specific computer, not transferable, and Internet authorization, which requires connecting once when starting each work session and can be used from any computer. All systems need a connection to Internet at least once during the authorization process, and a valid email.</i>		45,00
A2 Estimating tools		Requires	€
PG170	Ea. Presto Custom reports <i>Customizing reports and creating new ones.</i>	PG101	320,00
PG103	Ea. Presto Reading DWG drawings <i>Allows to extract take-off lines from AutoCAD or DWG drawings</i>	PG101	320,00
PG109	Ea. Presto Allplan <i>Import measurements in XCA Allplan format and from other programs in FIEBDC format.</i>	PG101	480,00
A3 Planning		Requires	€
PG104	Ea. Presto Gantt bar planning <i>Bar chart specific to the construction, providing seamless integration between planning and cost estimate. Planning with work units, activities, chapters or contracts. Includes planning of operations, controls and records.</i>	PG101	640,00
PG105	Ea. Presto Economic planning <i>Analysis of cost and bidding price, from the point of view of the construction company. Monthly economic planning based on work units. Calculation of resources by date, phases and activities. Financial planning, automatic generation of invoices and payments, withholdings and taxes. Cash Flow, IRR and NPV.</i>	PG101	480,00
PG106	Ea. Presto Contracting and procurement <i>Contract creation, manual or based on pre-defined purchase groups. Automatic search for suppliers. Application and receipt of tenders to suppliers in Excel or Presto. Comparison of contracts.</i>	PG105	480,00
A4 Cost management		Requires	€
PG168	Ea. Presto Project Management <i>Manages tasks during the execution of the work from the viewpoint of the director of the works or the project manager. Comparison of bids. Bill of quantities, payment certificates, information transfer between agents and economic monitoring. Earned Value Method based on Bill of Quantities.</i>	PG101	320,00
PG107	Ea. Presto Production, Invoicing and Cost control <i>Orders, deliveries, invoices and payments. Control of production and comprehensive cost analysis. Includes the Economic Information System for the construction company, and the Earned Value Method based on planned and actual costs.</i>	PG168 + PG106	640,00
PG118	Ea. Presto Project integration <i>Integrates in a central project the results of multiple works, browsing by date, suppliers, customers, groups or locations. Statistics and master database of historical concepts. Centralized management of orders, deliveries, invoices and payments of multiple works.</i>	PG107	640,00
A7 Auxiliary programs		Requires	€
PG120	Ea. Presto Server <i>Allows multi-user simultaneous access to all Presto projects located in the same directory, in a client-server mode.</i>		640,00
PG121	Ea. SQL Server Presto <i>Remote multi-user simultaneous access to all projects located in a SQL database, acquired, created and maintained by the user.</i>		3.200,00
PG117	Ea. Presto Development of pricebooks and catalogs <i>Help system for writing price databases and construction products catalogs, with or without parametric concepts. Encrypting of generation rules to deliver protected dynamic catalogs to users.</i>	PG101	1.600,00
PG130	Ea. Presto Digital Signature <i>Allows enforcing the use of a fixed pricebook to project teams or contractors, ensuring that received estimates and bids contain only unaltered prices, taken from that table. New work units and new prices can be added, but they are indelibly marked. Requires the previous signature of an agreement with Soft.</i>		2.560,00

PG122	Ea.	Presto Web publishing	PG120	1.600,00
		<i>Allows publishing in Internet Presto works, pricebooks and catalogs. The pages are generated dynamically at user request, without exportation. Supports parametric concepts and is fully customizable for adding data and processes to pages. Access to the pages can be restricted to registered or pay customers.</i>		
PG13	%	Discount 2 and successive stations in the network		-60,00
		<i>Second and subsequent licenses for network stations. The first station is considered the one with more modules. Media not included. All network programs must be updated to the latest version for adding modules or stations. The networks must have at least three stations. The authorization requires choosing one of three licensing systems available for standalone systems.</i>		
A8		Technical support		€
SG201	Mo.	Presto, except Presto Contracting and networks, yearly		18,00
		<i>Support for all modules of a Presto user in a single location, except Presto Contracting and networks, acquired for a full year or fraction thereof, not less than seven months, ending on June 30 or December 31.</i>
